do you like it

The rain and the moon and the sun
are spelling your name
Although you promised me it would be
only a game

Sometimes you lead me on
just 'cause you need someone
Sometimes I am the one you want

Sometimes you let me win
Sometimes I let you in
Sometimes I'm so in love with you
And you keep on playing
Spinning me around, spinning me around
And I keep on staying
Spinning me around, spinning me around
I say:

Do you like it?
Getting all exited
Show and hide it
Tell me, does it feel good?

Sometimes I just pretend
Sometimes you understand
Sometimes you're tight beneath my skin

Sometimes I fear you too
Or I don't care 'bout you
The room is tumbling all around

The rain and the moon and the sun
are spelling your name
Although you promised me it would be
only a game
