drummer drummer

Grain by grain the sand is parting
waves all over
steady rolling

Over, over wind embracing
I loosen up my hair

Drummer, drummer, drummmmer, drummer, drummer
x 3
You play the rythm of my heart

Flake by flake
the snow decending
Whiter than white
- this contradiction
In these times of ice and darkness
snow does only glow

Drummer, drummer, drummmmer, drummer, drummer
x 3
You know the rythm of my heart
