Listen up you girls and boys, gonna tell you 'bout a  
voice

That is more than just pleasing  
You'll see when you hear him sing

There is passion in his rhyme, he's got soul and he's  
got time

He don't even need to flex  
That is how it's with the best

He reminds me of when I was young  
When my singing days had just begun  
Philosofian, inspire me  
I remember how I used to be

Boy, you murder me, murder me  
The kids all love your voice  
Boy you murder me, murder me  
(Can't think about it too much)  
Boy you get to me, get to me  
The kids all love your style  
Boy you murder me, murder me  
(Can't think about it too much)

It's the words and the way you sing what I want to say  
You inspire me to play,  
Wanna go out there today

Sometimes everything seems bland, maybe you can  
understand  
That I need to feel so much  
'cause I
