"Sigh"

Just give me one more night
One chance to make it right
Baby don't say no cause you'll regret
Gonna be the best you've ever had

And we'll be sighing from the deepest depths
Giving in without regrets
That's why I sigh when I'm in your arms

Just give me one more embrace
And feel the heat of my face
Baby don't say no cause you will see
you will never find another me

And we'll be sighing from the deepest depths
Giving in without regrets
That's why I sigh when I'm in your arms

Just give me one more kiss
And concentrate on bliss
Baby don't say no cause it's a shame
We've had so many drinks that we could blame

And we'll be sighing from the deepest depths
Giving in without regrets
That's why I sigh when I'm in your arms
