I tried to understand but I just hurt you instead
And now you're giving up and say, "It's really not worth it."
And I know it must be hard when you're so forgiving
When I'm always taking but I'm never giving

Oh, I try to understand but I just hurt you instead
Oh, I try to understand but I just hurt you instead
Are you happy now?
Are you happy now?
Are you happy now?
Are you happy now?

I tried to open up, let go
But you said I was holding you back
Has the last year really been as bad as that?
I know I tend to forget when you're not there
All I remember is
How much you liked it when I ran my hands through
your hair

Oh, I try to understand but I just hurt you instead
Oh, I try to understand but I just hurt you instead
Are you happy now?
Are you happy now?
Are you happy now?
Are you happy now?
