This love (oh my beloved this state that we're left in)
My charity
My flesh
Is for your sake

I will walk this road with fear and trembling

Lord what a prize to die
In your arms
I cry out to you
From behind these bars
For my love

I am the poorest one
If I give all I have to follow you
Father

I still walk (in chains)

In these chains I still walk with you
With all that I am I will walk with you
With the weight of the world I will walk
God bring me back to walk with you
