oh oh oh oh
woah oo oh oh oh oh
oh oh oh oh
woah oo oh oh oh oh

the night is young
but I've been dancing all my life
under the sun
the freedom gives me life

so dance dance, move move
let the music get into you
so dance dance, move move
there is nothing you can not do

I'm in love with the night
we must come and unite
and dance here till we die
danza
till we die
samba
till we die
kor-russ
till we die
till we die
till de die

oh oh oh oh
woah oo oh oh oh oh
oh oo woh oh oh oh
woah oo oh oh oh oh

just move your body
rhythm takes you anywhere you like
to the party
where liberation comes to life

so dance dance, move move
let the music get into you
so dance dance, move move

there is nothing you can not do

I'm in love with the night
we must come and unite
and dance here till we die
'danza'
till we die
'samba'
till we die
'kor-russ'
till we die
till we die
till we die

oh oh
woah oo woah
oh oh
woah oo woah

I'm in love with the night (oh)
we must come and unite (oh)
and dance here till we die
'danza'
till we die
'samba'
till we die
'chorus'
till we die
till we die
till we die

oh oh oh oh
woah oo woah oh oh oh
oh oh oh oh
woah oo woah oh oh oh

the heart and soul,
what we know,
in love with the night
dancing til we die
