"When You're Sad"

I say you're selfish
Stop throwing glass against the wall
I think to myself "Why can't I keep my big fucking
mouth shut?"
I try to apologise
You say you're just going out
Is there something wrong with me?

I'm only happy when you're sad
I'm only happy when you're sad
I'm only happy when you're sad
Is there something wrong with me?

You say I'm selfish
I say I take what I can get
You say "That must be why your life seems so empty."
I try to apologise
And say that's just the way I am
Is there something wrong with me?
