i turn around, then you put your hands around my neck  
we just made the whole damn room stop  
cause you was thuggin on me, pulling on me, boy what  
you need?  
touching on me, hugging on me, it's clear what you  
need boy  
cause you be grinding me, following on me, but i can't  
even front, playa  
what i really really want is just for you to
