### "Everything's Changed"

Visit "[Everything's Changed](#)" on [MotoLyrics.com](http://MotoLyrics.com)

There is something, something about you  
Hard to explain it, but everything's changed  
Now there's nothing, nothing I can do  
To get you off my mind, I take a long drive  
And try to find the words to let you know  
That I had a love song, playing on the radio

The sun rises every morning, I look to the sky  
Feel it for the first time, feel it for the first time  
Stars shining all around me, the moon lights the night  
I see it for the first time, yeah; I see it for the first time  
And I'll never be the same, cause everything's  
changed, changed forever

My friends all think I'm crazy, when I tell them they  
save me  
When I hold you in my arms tonight, listen to my heart,  
this is what's inside

The sun rises every morning, I look to the sky  
Feel it for the first time, feel it for the first time  
Stars shining all around me, the moon lights the night  
I see it for the first time; see it for the first time  
And I'll never be the same, everything's  
changed (repeat x3)

The sun rises every morning, I look to the sky  
Feel it for the first time, feel it for the first time  
Waves crashing on the shore line, the thunder rolls by  
Hear it for the first time; hear it for the first time

Everything's Changed (Repeat)  
Yeah, Yeah; Everything's Changed; Listen to me  
baby

The sun rises every morning, I look to the sky  
Everything's Changed (Repeat)  
Yeah, Yeah; Everything's Changed, Changed,  
Changed, Changed
