Let's put on our crown,
Let's tear this city down
It's time to break some hearts

See the horizon's turning,
our souls are still burning
our plates are filled with flesh.

Our past is full of sins,
it's time to sweep our drinks
This town will know our names.

Let's have a good time together
it is now or never, we won't live forever (live for ever)
X2

Oh We're on our way now, this night belongs to all of us
we'll party till our bodies drop.
Oh we're on our way now, who cares of what tomorrow
brings
We are the lions!

Fill up you plastic cup,
the rule is bottoms up.
Then do it all again.

Let's climb up on the roof,
lets shout the very truth:Have fun is not a crime!

Let's have a good time togetherit is now or never,
we won't live forever (live for ever) X2

Oh We're on our way now, this night belongs to all of us
we'll party till our bodies drop.
Oh we're on our way now, who cares of what tomorrow
brings
We are the lions!
