[Verse 1]

Something is taking over  
My brain is like a motor  
Release me from these binds  
Help me free my mind  
Everyone's so disguised  
Can't find truth in their eyes  
Living this masquerade  
Everyone's so afraid

[Chorus]

To die is all we got, 6 feet down our bodies rot  
As our souls get released, next our carcass lays  
deceased  
Can't get it out of my head, can't get it out of my head  
Can't get it out of my head, can't get it out of my head

[Verse 2]

This is virtuality  
Someone explain to me  
I keep on seeing illusions  
of living institutions

[Chorus repeats]

Don't wake me I'm feeling fine  
I'm outta here in another time  
I'm more alive even after I'm dead  
Remember me with every breath  
I am a holy soldier! I am a holy soldier!  
I am a holy soldier! I am a holy soldier!
