Sophie B. Hawkins
''Meet Me On The Roof Top''

Meet me on a roof top
That's where I'm gonna be
This party is so old fashioned
Nothing is here for me

Meet me on a roof top
I'll bring the radio
We can kick our shoes off
And dance really slowly
Drink a little moonshine
Have fun in clover time

I've been watching you through a fascinating prism
Moving in and out of rhythm
Climb the fire, escape with me
We can spin the world around from a first class seat

Meet me on a roof top
Ooh, take a cab to the west side
Don't you worry about being so high up
Just lie beneath the city sky
See Ms.Liberty shine, shine

I've been watching you through a fascinating prism
Moving in and out of rhythm
Climb the fire escape with me
We can spin the world around from a first class seat

Meet me on a roof top
Meet me on a roof top, baby
Meet me on a roof top
Meet me on a roof top, baby

You bring the candles
And I'll bring the Arnica oil
I'll massage your mind
Until your spine uncoils

Baby, come on, come on, come on, come on, yeah, ooh
yeah
Meet me on a roof top

Meet me on a roof top, baby
(Baby)

Meet me on a roof top
(Ooh yeah)
Meet me on a roof top, baby
Come on, come on, come on, come on, yeah

I've been watching you through a fascinating prism
(Meet me on a roof top)
Moving in and out of rhythm
(Meet me on a roof top)

Climb the fire, escape with me
(Meet me on a roof top)
We can spin the world around from a first class seat
(Meet me on a roof top)

You're enticing me with a scintillating schism
(Meet me on a roof top, baby)
Dreaming in and out of living
(Meet me on a roof top)

Climb in my sleeping bag with me
(Meet me on a roof top)
You can spin my head around until the birds come
tweet, tweet, tweet
(Meet me on a roof top)
(Meet me on a roof top)
