Throw stones destroy all they can
Killing each other
Children running to survive
Covering from rapid murder

No fear...
(No Fear)
To end human life
Feeling...
(Feeling)
They are the sacrifices

Throw stones destroy all they can
Killing each other
Children running to survive
Covering from rapid murder

Behold letdown everywhere
Behold they have no care
Try to spread their ideology
Brutality

No fear...
(No Fear)
To end human life
Feeling...
(Feeling)
They are the sacrifices

Think once again
If you think you are God
(You are God)
I'll take your heads
(I'll take Your heads)
All of you
Will suffocated
(Suffocated)
Hell's waiting for you
Hell's waiting for you

Waiting For You (7x)

You'll tide by flamed ropes
Just get ready
To take your souls

Think once again
If you think you are God
I'll take your heads
(I'll take Your heads)
All of you
Will suffocated
(Suffocated)
Hell's waiting for you
(Hell's waiting for you)

Think once again
If you think you are God
(You are God)
I'll take your heads
(I'll take Your heads)
All of you
Will suffocated
(Suffocated)
Hell's waiting for you
Hell's waiting for you

Think once again...
(If You Think You are God)
I'll take your heads
(I'll take your heads)
All of You...
(Will Suffocated)
Hell's waiting for you...
(Hell's waiting for you)
