Was it easy? Was it hard?  
We will always wonder about that part  
Were you crazy? Were you brave?  
That's what we all wonder about today

We will live through this black day  
And we will pray by your young grave  
We will live through this black day  
And we will stand by your black grave

Were you obsessed or just low?  
Now we talk about how come it never showed  
What did you seek but couldn't find?  
When did we all slip your mind?

We will live through this black day  
And we will pray by your young grave  
We will live through this black day  
We will stand by your black grave

Was it easy? Was it hard?  
We will always wonder about that part  
Were you crazy? Were you brave?

We will live through this black day  
And we will pray by your young grave  
We're gonna live through this black day  
And we will stand by your black grave

We will live through this black day  
And we will pray by your young grave  
We will live through this black day  
And we will stand by your black grave
