I?m gonna bring a bottle of wine
Won?t change the truth just to fit our time
Disappointed, it was a man
Hidden in the woods of my dreamland
I wanted you to desire me

I could have
Gone with the madness
Gone with the madness

I don?t regret you or that I met you
But I was too honest where games must take their
place
It?s such a crime
But I was swept off my feet for the first time

For the first time, I don?t need my pride
To you it was crazy but I?m still excited inside
And I wanted you to desire me

I could have
Gone with the madness
Gone with the madness

Everything
Is gone with the madness
Is gone with the madness
