People talk about you  
I've got memories  
There is something about you  
I know what it is

How is your heart doing?  
Oh, they make me think of you  
Nowadays, that feels good  
Moments are coming back to me  
But closer than they should

How is your heart doing?  
Where I'm not welcome no more  
How is your heart doing?  
Just wondering, that's all

I was so young when I fell for you  
It must have shaped my heart  
But the youth is for the history  
and life does need new starts

How is your heart doing?  
The one I was dying for  
How is your heart doing  
I'm wondering that's all
