I have gone back dreaming  
So you must lead me through the day  
I will touch you night time  
And in the loveliest way  
I would feel the sunlight  
But I could burn from everywhere  
Now you must make me a shadow  
I will shine for you in there  
I can't change  
I can't change  
I can't change  
My angel took her promise  
And left with the worst of lies  
How will there ever be a future  
If everyone just dies  
I can't change  
I can't change  
I can't change  
I have gone back dreaming  
So you must wake me in a while  
You will see me leaving  
You will get my morning smiles  
My angel made my difference  
Like no one really can  
She left me here to love you  
Please love me if you can
