From pigtailed to wedding veils  
From pinafores to lace  
And in between are the special years  
Time never can erase

From play toys to college boys  
From little girl to wife  
And in between are the special years  
You remember all of your life

The special years are filled  
With sweet promises and pain  
But love will never taste  
Quite so wonderful again

So slow up, don't rush to grow up  
You'll be a woman before long  
So stay awhile in the special years  
Their magic will soon be gone

Just stay awhile in the special years  
Their magic - will soon be gone...
