Say yeah, yeah, yeah, yeah, that's right
Open your eyes,
Say yeah, yeah, yeah, yeah, yeah,
Open your eyes, that's right

We rocking out my love, you kiss me hot and that's
what's up
No matter what I need this love, when you pretend I am
the one
She makes me feel her she's blessed,
I'm dressing, like all the ladies in love
Let's shot them dreamings, get your body faster to the
floor

Love me, love me, love me babe
Say you love me babe
Need you, need you, need you my love
Love me, love me, love me babe
Say you love me babe
Need you, need you, need you my love
Love me, love me, love me babe
Say you love me babe
Need you, need you, need you my love
Love me, love me, love me babe
Say you love me babe
Need you, need you, need you my love

Hey shawty, it's the eyes who gives me, marry your
love
And give me your love
Hey baby, life is smiling pretty face you're the one
Give your love

We rocking out my love, you kiss me hot and that's
what's up
No matter what I need this love, when you pretend I am
the one
She makes me feel her she's blessed,
I'm dressing, like all the ladies in love
Let's shot them dreamings, get your body faster to the
floor

Love me, love me, love me babe
Say you love me babe
Need you, need you, need you my love
Love me, love me, love me babe
Say you love me babe
Need you, need you, need you my love
Love me, love me, love me babe
Say you love me babe
Need you, need you, need you my love
Love me, love me, love me babe
Say you love me babe
Need you, need you, need you my love.
