This is black skies this is reality  
These are bullets flying through me  
And this is so surreal  
I don't know if I'm awake

There's blood on my hands  
But I don't know if it's mine  
Doctor tell me, tell me I'm fine  
Because I can't feel my legs  
Feel my lungs exhale

This is right where I've got to be  
I don't know what it is, but it's bright  
And waking up to this isn't what I thought

"Just breathe, I've got to focus"  
Figure out where I am  
I'm in a white room, standing next to my dad  
"Hello son, your wings look good,  
You did great down there, but your time was done  
It is perfect here, don't have to miss me anymore  
Because I'm with you, I'm with you"

This is black skies this is reality  
These are bullets flying through me  
And this is surreal  
I don't know if I'm awake

"Just breathe, I've got to focus"  
Figure out where I am  
I'm in a white room, standing next to my dad
