What is  
is a game for scholars  
So: it was sheer necessity  
nothing but chance that  
for reasons hidden to the world  
has led the two soul here  
Made them equal like dog and owner  
annoyed but neutral spend the night  
sharing the same bed they did slumber  
beneath two blankets ...side by side

It makes no difference to explain  
How it all came to this  
'cause what if is a game for scholars  
approve and seal it with a kiss

Quickly erasing your lust, all we inspire is disgust.  
But then, of course, you can never be sure.  
and that's the ghost that's haunting you

Familiar causes made me shiver  
mainly with chill this foetus coiled  
Apologies did only soothe his anger  
but explanations could not avoid  
him wind down down the ancient form  
the spell of insecurity  
that liturgy which cruelly pointed out  
the difference between him and me

I can't be bothered to explain  
how it all comes to this  
because all causes are "familiar"  
accept, and seal it with a kiss

The larch, and not the morning-cock  
beheld two spoons our cook had graced  
and as our hero woke, he found  
his left arm still around my waist  
he rose, and I, the ugly child  
born of the shadow sphere  
allowed my th oughts to briefly travel

to a world ..... to far from here  
where it's the cock that greets the morning  
and piles have meanings unlike their faces here ... -

but what if is a game for scholars not, baby.  
so try your best now to hide the tears

He said, as he walked to the bathroom:  
"I am not at all like you"

"Well I don't have the slightest idea  
what you could possibly be referring to.  
But rest assure, man, because whatever  
this most dreadful thing might be  
be sure that our difference is more than obvious  
to the world outside ... and me!"

Quickly erasing your lust, all we inspire is disgust  
But then, of course, you can never be sure  
and that's the face that's frightening you

I can't be bothered to explain, how it all came to this,  
'cause what if is a game for scholars  
and it's called:  
Helvetia Sexualis
