Is this goodbye and farewell? it's a romantic tragedy
All is fair in love and war and I'm the lonely casualty

Your forked tongue has lost it's sharpness
It doesn't have the luster it used to before
Sure it takes a lot of soul to forgive
So let me show you your way out of that door

You are a beautiful walking mistake and from you I
have learned
How could someone so true be so fake? Now you're
none of my concern

Let go- you are nothing I deserve
- your acting's all but superb
- a romance for the deaf and blind
- with such poor taste and design

These calloused hands are shaking and I'm breathing
heavily
Soon all of this will be over shadows reaching out to me

Sweet nothings in my ears now they disgust
Those letters you've sent now gather dust
Sure it takes a lot of soul to forgive
I'm dead with you and now I want to live

You are a beautiful walking mistake and from you I
have learned
How could someone so true be so fake? Now you're
none of my concern

Let go- you are nothing I deserve
- your acting's all but superb
- a romance for the deaf and blind
- with such poor taste and design

And now this is the time and I cannot pretend
The day I live again is when our story ends

Dramatic lies and severed ties in bloodstained cradles

lay
Despite the loss that bridge I'll cross come calm or
storm what may
We drank the wine the undivine process of suicide
Let it be known apart we've grown I gave you
everything I own
And as you make your final exit I let our story slip away
I bury you with the memories of a forgotten yesterday
