Your mother doesn't like me
not one little bit
your sister hates me too(yeah)
and if they could erase me
they'd get rid of it
that's exactly what they would actually do

Chorus:

What a disgrace
a kick to the face
what did I do to make you feel this way?
are you afraid?
but I've only made
promise to burn these wounds you'll never break
Killers make me wanna, Live

It seems your out to get me
for the hell of it
you love to see me fail (yeah)
your whispers don't effect me
not one little bit
all you hear is no i'm not ready to bail

Chorus

I could leave
no return
forget the acid spilled from your tounge
and pretend like it doesn't burn
I could stay
get in your face
let you choke on word from your blood but I never
would

What a disgrace
a kick to the face
what did I do to make you feel this way!

Chorus
