

## Soraya "Bottom Out"

Visit "[Bottom Out](#)" on MotoLyrics.com

Feelings lose control. Emptiness is all own  
Running out of time. Watching love pass us by  
Someone that I've known, stands a stranger in my  
home  
Staring with sad eyes.

Watching love pass us by  
Knowing we must figure out, what this madness is all  
about  
before it makes a memory of you and I  
Harsh words, no gain, falling until ...

We bottom out

Silence bums so bad.  
Painful thoughts slip through our hands  
Staring with sad eyes.  
Staring with sad eyes.

Watching love pass us by  
Knowing we must figure out,  
what this madness is all about  
before it makes a memory of you and  
I Harsh words, no gain, falling until ...

We bottom out

How we were flying high  
when we were falling in love  
How I wish we could get back the lost time  
If you want me still, promise me you're gonna try,  
do it right, prove to me that what you feel is real

Knowing we must figure out,  
what this madness is all about  
before it makes a memory of you and I  
Harsh words, no gain, falling until ...

We bottom out
