Once I found a love, I thought was real  
Twice I thought I'd knew how it would feel  
Thrice I locked my heart in walls of steel  
Now with you it's time to break the seal

It's in the way you look at me  
It's in the way you smile at me  
In the way you say my name

I, I fall apart each time  
Each time you say you're mine  
I'm yours, I'm yours

The first time, I had to run away  
The second I knew, I could not stay  
The third time felt like any other day  
Now with you there's no time for delay

I, I fall apart each time  
Each time you say you're mine  
I'm yours, I'm yours

It's in the way you look at me  
It's in the way you smile at me  
In the way you say my name

I, I fall apart each time  
Each time you say you're mine  
I'm yours, I'm yours
