Afrikaans:

[Koor]

Kom ons staan opsy

En wag vir ons fortuin

Terwyl ons opgaan en ons self --- die vrede verdienste

Vir niemand anders

Los die kruis buite op die sypaadjie

Dankie ek is veilig hier

Loop skellum loop

Die pad is lank, en ek het kla my kleingeld weg gegee

My siel verplaas in die atmosfeer

Bly en leef, want jou dood sal ek nooit verwerk en

Al is daar hoop, is dit niet sonder harde werk

[Koor]

Vind skuiling onder die brug

Die nag is swaar, en ek ek het klaar by jou (keurig?)

My brein verruil vir navorsing

As ons saam sal brand, maak dit saak wie die meeste

hier op aarde het

Hoeveel moet ek spandeer?

Hoeveel moet ek spandeer?

[Koor]

Maar ek het nog niks hier uit geleer nie

Ouer is net gelyk aan dommer

Dankie, ek is veilig hier

English:

[Chorus]

Let us stand aside

And wait for our fortune

While we gather more and gorge ourselves

On the wicked wages

For no one else

Please leave the cross out there on the sidewalk

Thank you I am safe here

Walk swindler walk
The road is long and Iâ€™ve already given all my change
away
My soul displaced to the atmosphere
Stay alive, because I could never deal with your demise
Even if thereâ€™s hope itâ€™s never without hard work

[Chorus]

Find shelter under the bridge
The night is long and Iâ€™ve already dumped all my old
clothes
Exchanged my brain for research
If we burn together, does it matter who has the most
here on earth
How much do I have to spend?
How much do I have to spend?
Thank you, I am safe here

[Chorus]

But I still havenâ€™t learnt anything from all of this
Older now just equals dumber
Thank you, I am safe here
