"Opportunity For Two"

It had to be me
It had to be you
It seemed to be a dream
It happened to be true

A fine futurity for one
A day to make hey
A race to be run
Though the blue for you
They say you the one

We might happen to meet
Aint it sweet when it's a glad song?
Just keep a flappin your feet to beat the band out of a
sad song

God only knows
Which way the wind blows
Could blow us away
So I always say
My honey don't go

Let's spend today
And dream this away
Like honey to bee
It's just you and me
In love for a day

Let's spend today
And dream this away
Just what could be wrong
To string me along
In love for a day
