I hope you learn a lot about you
I hope you learn a lot about you

I hope you learn a lot about you

And you know it comes full circle

Hated by Healthy Geometry.

I hope you learn a lot about you,
And the philosophies that you've choose,
And you know it comes full circle.

So I'm not coming!
And this abbreviated sex talk is just an opportunity to
make noise,
Next time you're at the Airport I'll be halfway downtown.

So I'm not coming,
And this abbreviated sex talk is just a chore, soon
become a bore,
Next time you're at the airport,
I'll be halfway downtown

Straying Course,
My Directions Forced,
By my super-shifting repeats in time.

Straying Course,
My Directions Forced,
By my super-shifting repeats in time.

By my super shifting repeats in time!
By my super shifting repeats in time!

But my Super Shifting repeats don't cover selfish
comfort
And I'll Never Say "I Love You" again
