Uh we're coming alive
My heart is an ocean
With love in your eyes
Ready to tell me up tonight

We're coming alive
And invade it to your high
And this is our time
We're coming alive

Okay
I've got a loaded gun
I got a hunger for some love and now you're gonna
feed me
Okay
We're gonna shoot the sun
We're gonna beat the shadows and the people watch
me rhyme

Uh we're coming alive
My heart is an ocean
With love in your eyes
Ready to tell me up tonight

We're coming alive
And invade it to your high
And this is our time
We're coming alive

Pick it up take it out bouncing bouncing
Take it up, I can't stop bouncing bouncing
Give it up, tear it outbouncing bouncing
Kick it up, I can't stop bounce bounce bounce

We're coming moooore

We're coming alive
We're coming alive
We're coming alive
