Girls were made to love and kiss
And who am I to interfere with this
Is it well, who can tell
But I know, the good God made it so

Am I ashamed to follow nature's way
Shall I be blamed if God has made me gay
Does it pain, who can say
I'm a man and kiss her when I can

Yet I have suffered in love's great heat
I know the passion that never sleeps
I know the longing and yearning for ?????? ??????
To know the pleasures and ?????? ??????

I have the fever that ?????? ??????
Man cannot always be ?????? ??????
And in our ?????? and ?????? ??????
Flirting is jolly, it's folly, but fun

Girls were made to love and kiss
And who am I to interfere with this
Does it pain, who can say
I'm a man and kiss her when I can
