

## Sorrow "Collector Of Tears"

The collector of your tears  
Cause I provoked them to run  
Drown your cheek till they drop  
I lived a life full of sorrow  
Cause you sent me ravens of death  
From a hell deep below

You are the only one I adore  
Read from my broken soul  
Dead and cold  
Facing my inner fears  
Relentless  
I am your inner fear

Forgiveness  
A word that I don't know  
I'll haunt you  
Remind you of sorrow

Burn all the pictures I held dear  
Cause they wake the demons  
I feared all my life  
Without fail  
Now all our dreams die in anguish  
Cause they were visions of grey  
Inside this shell  
Hides your enemy

In silence we grow  
It tears us apart  
There's nothing to say  
Show me your true colours
