Lately, I get the feeling when I'll be sane,
It's too much, I'm not sure how much more I can take,
I need a little time to make sense,
Of how I got so high so fast.

And I think I'm coming down,
And I think I'm coming down.
Everything around me falls away except for you,
I think I'm coming down

I've been riding, been lost inside this city for days,
And you call me out to see if I was doing okay.
I don't want to be troubled,
Because I couldn't leave well enough alone

And I think I'm coming down,
And I think I'm coming down.
Everything around me falls away except for you,
I think I'm coming down.

This time, there's no one else except for me in the way,
And I have to tell you what I'm feeling,
It's that I don't want to be taken by a lie that's gone to my
head,
If I'm yours then why am I outside waiting at your door
at night?
Tell me everything, every thing's alright.

And I think I'm coming down,
And I think I'm coming down,
Everything around me falls away except for you.
I think I'm coming down,
I think I'm coming down,
Everything around me falls away except for you,
I think I'm coming down.
