When you wake up and you read this
You have to know that I really mean it
You're just a memory, you're just a memory

Of a long road that got too hard
And the more we go the more that it hurt us
So as friend to me, as a friend to me

Let those feelings go, I said until everything is gone
You and I we know our history
Let those feelings go, I said because everyone moves
on
You and I we know our history

So was it all bad or was it all good?
Was someone in between, well, really what isn't
Think what you wanna think
You can think what you wanna think

About the love we had it was so much work
The thrill is gone so what are we left with?
You're not gonna change for me
And I'm not gonna change for you

Let those feelings go, I said until everything is gone
You and I we know our history
Let those feelings go, I said because everyone moves
on
You and I we know our history, it's on my mind

Yeah, I'm out of time
I'm out of time

So let those feelings go, I said until everything is gone
You and I we know our history
Let those feelings go, I said because everyone moves
on
You and I we know our history

We know our history
We know our history
We know our history

We know our history
