I got the type of style that make you catch a case, It
written all over my face

Glock Tawk

I park close to the side walk, and i'm fresh like the
wings on a Colorado red Hawk

I got the type of style that make you catch a case, It
written all over my face

Glock Tawk

I park close to the side walk, and i'm fresh like the
wings on a Colorado red Hawk

Verse 1

Don't leave baby, work till they close, thats how we get
that dough

I almost let you pass, driving too fast, I had to take my
foot off the gas

You look like something that was made for the center
stage, just the look in your eye says get me paid. I
floated on the scene like a butterfly, but did it like a
bumble bee, so honey had to wonder why, now, you the
whole truth-nothing but the truth- the rap gods baby
sent me to find you put the game down, frame down,
hey now picture what the broke bitch gonna say now
cuz they all know from the get go I say a verse from the
book called Fillmoe.

I got the type of style that make you catch a case, It
written all over my face

Glock Tawk

I park close to the side walk, and i'm fresh like the
wings on a Colorado red Hawk

I got the type of style that make you catch a case, It
written all over my face

Glock Tawk

I park close to the side walk, and i'm fresh like the
wings on a Colorado red Hawk

Verse 2

Im kamikaze baby, I don't have no trust, lost in the
world of the lust, looking for the bucks, sometimes you
attract them ducks but everything is done on the hush.
nighttime is the right time and sometimes you get

nervous at flight time but wonder what she get when it goes perfect the same night and you still want to work it, your dedication is emancipation, and you deserve a celebration like rick james I add sugar when the grits came which means were gonna be aright if the drought came, you get down with no shame and you can see I live my life in the Moe's name. You get down with no shame and you can see I live my life in the Moe's name

I got the type of style that make you catch a case, It written all over my face

Glock Tawk

I park close to the side walk, and i'm fresh like the wings on a Colorado red Hawk

I got the type of style that make you catch a case, It written all over my face

Glock Tawk

I park close to the side walk, and i'm fresh like the wings on a Colorado red Hawk

Verse 3

It was a hard night, tricks just didn't bite, its 4 and theres nothing in sight. I fly through like a kite music real loud im tired by the way you sit down, then somebody fell through, someone you knew, you knew you could get at least two you got hyped up for the rendevous just like a kite once again I flew, meet me back at the jones, that means home, then she heard the peel out from the vouges. and she knows that I like new clothes, she says freeze and I might say froze, Mercedes Benz over Cadillac though, sometimes we hit up them R and B shows then its back to the grind one more time one more time means one more time do we ever stop it will tell in time but right about now you cant tell this time how much baby is your bail this time hope you don't have to go to jail this time on the rap gods you'll be missed this time but when you get out you'll be rich this time.

I got the type of style that make you catch a case, It written all over my face
