Bitches take your clothes off
Homie let the money talk
I don't really care if you a baller or a big boss
(It's a strip club)
Bitches take your clothes off
Homie let the money talk
I don't really care if you a baller or a big boss
(It's a strip club)

Man this is the place to be
Man iced up to pay a fee
How many girls up on the floor?
I'd say about like twenty three
They like to shake it
They tell you "Homie drank it up"
And all the white girls like the brown girls with big butts
The Hennessy is fillin'
Man it's such a gangsta feelin'
Look at all the bitches as they walk around it's so
appealin'
You know your supa chillin' when your money hits the
ceilin'
This is what you really think about
Khan

Bitches take your clothes off
Homie let the money talk
I don't really care if you a baller or a big boss

(Yeah)
You wanna talk with her
Man then grab a drink and walk with her
And hit the champagne room and buy a bottle and get
lost with her
Even my waitresses are super bad with super ass
Bringin' y'all the bottle
Askin her to join and she ain't mad

They like to click they heels

And focus on the dollar bills

The more they see the money is the more you see a
better thrill

If you keep you keep it crackin' where the money keeps
on stackin

I'm a tell you playboy

It's automatic

(Khan)

Bitches take your clothes off

Homie let the money talk

I don't really care if you a baller or a big boss

(It's a strip club)

She really wanna do it

Man she really wanna make it

Man she really wanna grab it

Man she really take it

She like to do it naked even if the club is packed

Man as long as all the money is all there and it's super
stacked

You know the stage is lit with money man all over it

With six or seven girls that can dance and they super
thick

They straight doin' it

Nothin' here can ruin it

This is real talk

Where them dollas at?

Bitches take your clothes off

Homie let the money talk

I don't really care if you a baller or a big boss

(It's a strip club)

Bitches take your clothes off

Homie let the money talk

I don't really care if you a baller or a big boss

(It's a strip club)
