It's only mandatory
the rap game aint never bore me
MC's they try to floor me
mothafuckas just want the glory.
I hit em with venom
Let the venom hit em
Wait til the venom hit
king cobra straight yola
ticky ticky time bomb
its just like napalm
I chill with playas and rap gods and shear khans
man first i rev em up smevev em up man then i tear em
up
catch em slippin
while cookin pork chops in the kitchen

this game is so cold
and man you cant tell?
its like a plane crash
one ticket straight to hell
there aint no O.R.
and man there aint no bail
its like a plane crash
one ticket straight to hell

its so simplistic
how the gods flick on the gifted
nigga heres your ticket
come on in but hide your biscuit
mind full of doja
freaks they wanna know ya
cops they pull you over
with a angel on yo shoulder
you better stop bitch
you want some paper bitch?
you better pull a caper bitch
its just like trinity
double glocks scared of that enemy
15 yard penalty
make you step back for infinity
get yo flow homie

perfect yo show homie
and when you grow homie
then get yo dough homie

this game is so cold
and man you cant tell?
its like a plane crash
one ticket straight to hell
there aint no O.R.
and man there aint no bail
its like a plane crash
one ticket straight to hell

they call me nicky
half ounce of that sticky
freak said she wanna get with me
back up bitch
its like
tiger prawns and caviar
doin 110 in a foreign car
keep yo mackin up to par
keep yo stackin up to par yo
its just like livin it up yo
its just like givin it up yo
its just like trippin it up flippin it up crippin it up rippin it
up yo

this game is so cold
and man you cant tell?
its like a plane crash
one ticket straight to hell
there aint no O.R.
and man there aint no bail
its like a plane crash
one ticket straight to hell

this game is so cold
and man you cant tell?
its like a plane crash
one ticket straight to hell
there aint no O.R.
and man there aint no bail
its like a plane crash
one ticket straight to hell

please
