If it's meant to be, the universe is gonna throw it back
to me,
It's just how I feel
So tonight, we'll spin around the planets like a satellite

Mercury is rushing through my blood, just like an
energy,
It's just how I feel
If it's meant to be, the universe is gonna throw it back
to me

[Chorus]
Ooooh to get it back, all we need is to let it go
Ooooh put your faith, put your trust in the chemicals

Take a fear, release it, watch it burn up in the
atmosphere,
Just give up the ghost
And let it be, you know it doesn't have to be a mystery

[Chorus]
Ooooh to get it back, all we need is to let it go
Ooooh put your faith, put your trust in the chemicals

[Bridge]
If it's meant to be, the universe is gonna throw it back
to me
If it's meant to be, the universe is gonna throw it back
to me
It's gonna throw it back to me

[Chorus x2]
Ooooh to get it back, all we need is to let it go
Ooooh put your faith, put your trust in the chemicals

Put your faith, put your trust in the chemicals
Put your faith, put your trust in the chemicals
