6.30am the clock goes Boom
I hit the snooze cause I want to sleep til noon
My mom comes in at 7am says
Ya better get up or you're going to be late for school

Chorus

The place where they make the rules
And I get to hang with friends ya know
That's what I do when I go to school
I learn my arithmetic and
French class makes me sick
At lunch is where I mix when I go to school

My dad drops me off at 8:15
We almost crash, he was reading a magazine
He spills his coffe on his shirt
And yells out something that makes me go beserk

My homeroom yapping before the bell
And 3 kids are tickety tickety on their cell
Boys the right and girls to left
Making up gossip that only counts in school

Chorus

So and so's party is so exclusive
They make it sound so elusive
But I don't care, cause I better than that
Just watch me dance all over this track

Chorus
