There are girls
Who always seem to think before they speak
There are girls
Who always make me feel like I'm a freak
I'm way to loud
I say the wrong things at the wrong time
And I can't figure out
Why they never trip and fall
Well I'm never like that at all

[Chorus]

'Cause I just don't fit in
And I don't stand out
And nobody under...stands what I'm about
'Cause I'm not all that special
So what am I doing here
I guess I'm just weird

I'm not the kind
Who always manages to look my best
I'm not the one
Who always gets a plus on every test
I walk around
I never pay enough attention
And I can't figure out
Why others never trip and fall
'Cause I'm not like that at all
Woh-oh

[Chorus]

'Cause I just don't fit in
And I don't stand out
And nobody under...stands what I'm about
'Cause I'm not all that special
So what am I doing here
I guess I'm just weird

[Bridge]

Everything is upside down to me
Nothing's ever what it seems to be
Sometimes I'm wrong, sometimes I'm right

Sometimes I even pick a fight
I hope you'll forgive me

There are girls
Who always seem to think before they speak
There are girls
Who always make me feel like I'm a freak
I walk around
I never pay enough attention
And I can't figure out
Why others never trip and fall
'Cause I'm not like that at all
Woh-oh

[Chorus]
'Cause I just don't fit in
And I don't stand out
And nobody under...stands what I'm about
'Cause I'm not all that special
So what am I doing here
I guess I'm just weird

'Cause I just don't fit in
And I don't stand out
And nobody under...stands what I'm about
'Cause I'm not all that special
So what am I doing here
I guess I'm just weird
