Im hypnotized, mesmerized,
catalyzed, equalized, by the words that youre saying
And Ive never played the games that youre playing
But I like it, you can see from my eyes
I cant get enough I really like it, its better when you
move

I think Im goin down with my ship
I think Im goin down and your comin with me
I think Im goin down with my ship
I think Im goin down

Quicksilver flashes in a crimson tide
Im bottled up by the changes of your mind, its better
when you move
Eagles soar, oceans roar, over the sea I cannot hear
the words you say to me,
And I cant catch my breath

I think Im goin down with my ship
I think Im goin down and your comin with me
I think Im goin down with my ship
I think Im goin down
