Did you see the way she looked at me?

She's in that last room

What do you want me to do?

Fight!

If you do not dance, you have no purpose
And we don't keep things here that have no purpose
You see, your fight for survival starts right now
You don't want to be judged
You won't be
You don't think you're strong enough
You are

You're afraid, you told me
You have all the weapons you need
Now fight!

Who is it that chooses our steps in the dance?
Who drives us mad?
Lashes us with whips and crowns us with victory when
we survive the impossible?
Who is it that does all these things?
It's here
You have all the weapons you need

Now fight! [4x]
