This sound gets the best of me
This sound releases me
When I'm next to you
When you're next to me

Sparks fly when we start to move
Sparks fly can you feel that too
You're next to me
And I'm next to you

Let the darkness fall
And the lights go out
I can feel you here
Taste the night (taste the night) oh oh

Close your eyes
Feel me by your side
Let the music rise
Taste the night

It's not a night to be alone
We need someone to hold
Come and dance with me
And I'll dance with you

A light touch between you and me
I'm turned on so easily
When I dance with you
When you dance with me

Let the darkness fall
And the lights go out
I can feel you here
Taste the night (taste the night) oh oh

Close your eyes
Feel me by your side
Let the music rise
Taste the night

Don't leave me

Move closer
Embrace me
Take over
Rush through me
Feed my soul
Just take me and don't let go

Just take me and don't let go

Let the darkness fall
And the lights go out
I can feel you here
Taste the night (taste the night) oh oh

Close your eyes
Feel me by your side
Let the music rise
Taste the night oh oh oh oh oh oh oh
