Fire is burning from inside
Burns your flesh, burns your mind
This is fire with no cause
That obeys no physic laws
Instead of a corpse is a gaping hole
Greasy soot stuck to wall
Was a drunk uncareful with fire
Or was it fueled by death desire
Fueled by death desire

Liquified human fat
Maybe aids the burning
All is left is fuming foot
And human skull still shrinking

Spontaneous internal combustion
Is burning your life away

That unknown destructive force
In seconds destroys your torse
Chin and brain are all consumed
But the limbs left unburned
Body's just a heap of ash
That will finish in the trash
Does our victim fell the pain
No one knows, mystery remains
Burn from inside

Liquified human fat
Maybe aids the burning
All is left is fuming foot
And human skull still shrinking

Spontaneous internal combustion
Is burning your life away
Burning your life away

Burn
Burn from inside
