For you I will be anything you need
For you I will do anything you want
Follow me baby
'cause you'd better love me now

You got what I need that body and the beat
You're fine and define this boy say you're mine
Come to me baby
'cause I'm gonna love you now

Sweet honey
Won't you be my sunshine?

More
gimme more
gimme more
if you love me gimme more
gimme more
gimme more
I'm freaking' out for yourself
do it now
I'm addicted to the way you give me more
c'mon and gimme more [x2]

won't you be my sunshine?
won't you be my night scene?
won't you be my fire?
won't you be my wonder, my wonder, my wonder?
