Dressed to kill this thrill will be the end  
Save your side of the story  
It's just so annoying  
There's pictures in my head I can't give back

'Cause you had to be the life of the party  
And will you not know what to say  
To the boy who gets your heart someday  
And you're used body

[Chorus]  
With this drink of poison  
You'll choke (but my bleeding heart will ruin it all!)  
'cause I know history will repeat itself

O.K you got me now I must confess  
This humbling experience has brought me bliss  
So many things are just best left unsaid  
'Cause you're such a liar, You're such a good liar

And will you not know what to say  
To the boy who gets your heart someday  
And you're used body

[Chorus x2]
