Holed up in the dressin' room without a dress  
Kneelin' at the confessional with nothin' to confess  
And I knew all about my surprise party, I was spoiled  
and depressed  
And I acted surprised and I told lots of lies, yes, I did  
my best

Stop the truck at the truck stop, I need somethin' to  
help me crash  
Food stamps, cheques and credits cards, but they only  
accepted cash  
There was sweat beatin' on my brow, my heart was  
beatin' out of my chest  
So I stole everythin' they couldn't give away, yes, I did  
my best

And I did the best that I could do  
With all the mess that I've been through  
What did you expect me to do?  
I did my best for you

I was waitin' for a chain reaction with the missin' link  
Waitin' for that trickle down forever circlin' the sink  
I was tired of bein' tired, I could not get no rest  
So I kept sleep walkin' an' talkin' in my sleep, yes, I did  
my best

And I did the best that I could do  
With all the mess that I've been through  
What did you expect me to do?  
I did my best for you  
I did my best for you
