You make me fall from  
Lies of hate  
You make these walls from  
Lines of a face  
Nobody's watching  
So why do you act like a fake

You make me crawl from  
Lies of hate  
You wake me up from  
The lines that separate

And when you shine  
I know how to find out about  
How to get out of it  
How to get out of this chase

How to get out of it  
How to get out of it  
How to get out of this place

You make me fall from  
Lies of hate

And when you shine  
I know how to find out about  
How to get out of it  
How to get out of this chase

How to find out about  
How to get out of it  
How to get out of your space

How to get out of it  
How to get out of it  
How to get out of this place

How to find out about  
How to go out without  
Living the lies of hate
