True believer
You've really started somethin' got me thinkin' i can
make it on my own
Never be alone
Ya got me thinkin' about it
Ya got me thinkin' i could make it all worth while
I could dream like a child

"cause I'm a true believer
And I'm believin' in your new machine
Tumblin' down your old regime (?)
Have you heard the news?

Really meant what you said
Though you said that you believe the things you read
The paper's on the bed
Ya gotta believe in somethin' gotta believe that I can
make it all make sense
I can take it, I can take it

"cause I'm a true believer
I'm believin' in your new machine
Tumblin' down your old regime (?)
Have you heard the new line, headlines, between lines
Have you heard the news?

I've been thinkin' about it
I've been thinkin' i've been thinkin'
I've been thinkin' i've been thinkin'!
I've been thinkin'!

I'm a true believer
I'm believin' in your new machine
Tumblin' down your old routine (?)
(?) out your old routine

Have you heard the news?
Have you heard the news?
Have you heard the news?
Have you heard the news?
