#13. Worship

(Joshua, Je'kob, Rachael Washington, D. McKee)

chorus

workin' on really servin' Him in praise (worship)

workin' on really servin' Him in praise (worship)

workin' on really servin' Him in praise (worship)

(worship, worship)

workin' on really servin' Him in praise

Gaze into His eyes, fantasize the last days

The last phase of God's untouchable plan

Until then, worship His name through this black pen,

writin' raps

Or anyway that i can, still praisin' God

Cause that's the way that i am, you might call me odd

But that's aight, we are Souljahz of the Lord

and we are ready to fight

Neva will we eva stop

We love Jesus from the bottom of our hearts to the top

Pumpin' God's blood through our veins

Handcuffed to Jesus Christ and feet shackled in chains

And we don't wanna be free, we just wanna see the

Savior and Creator of the heavens and seas

G's not necessary because we

Only need two knees to bow down and

Worship G-o-d

Chorus

When i come through i'm breakin' buildings

And i'm makin' walls fall

Sit back and relax cause we got more in store for y'all

So listen up and listen good

We gotta praise God through our whole

Neighborhood, i should

Slow it down, so you can understand what

This flow is all about

And we can break down these sounds and take time to
meditate

On the word of God so your wisdom can escalate

When you gonna put your foot down, take a note now
Acceptin' God is your only hope now
Reach down, deep down in your heart
You talk the talk but do you walk the walk?
You say you love God but do you really love God?
Will you still love God when situations get hard?
Or will you walk away, or will you get down and pray
And worship the Lord almighty like we

Chorus

(Worship) the Lord almighty
ain't it odd people take God so lightly, check it
Satan is waitin' to fight me and you might say
That i'm dumb for walkin' away i chose the right way
Despite the obstacles that stand
In my way don't play praise God with two hands
Lift em up to the sky, head to the ground
Every knee will bow down, to Jesus don't play around
And if you say you found God then prove it
Profess it with yo tongue you gotta mouth son use it
Jesus is het name above all names
Forget a famous superstar God possess all fame
He posses all thing around me, around me
Word, His Holy words neva seize to astound me
And everywhere i look and everywhere i go
